

Assignment 2

Snowman description:

- The outline of the snowman should be in black.
- The snowman's body should be made of 3 circles.
- Each circle should be centered above the one below it (except the bottom circle, which can be located anywhere).
- There should be no gap between the circles.
- Give the snowman eyes, a nose and four buttons (a hat is optional).
 - you can use the **dot()** function or stamp() function for eyes and buttons
 - you can draw a small triangle (or dot) for the nose
 - you should increase the width of turtle before using the dot function. use the **width()** function to set the width of turtle.

Optional parts (not required, but can get you two bonus points if done):

- The snowman should be on a blue background, and should be drawn filled with white.
- You can include two stick-arms and at least two fingers on each hand.
- Draw some trees, simply draw green triangle with brown rectangle as stem.
- Coloring of different items: buttons, eyes, nose, hat.
